Annuities are long-term products designed for retirement.

Retirement accounts such as IRAs can be tax deferred regardless of whether or not they are funded with an annuity. The purchase of an annuity within an IRA does not provide additional tax-deferred treatment of earnings. However, annuities do provide other features and benefits.

Withdrawals may be subject to federal and/or state income taxes. Federal restrictions and a 10% federal early withdrawal tax penalty may apply if taken before age 59½. Early withdrawals may be subject to withdrawal charges. Partial withdrawals may reduce benefits and contract value.
